## **LA COUNTY TO REQUIRE PROOF OF VACCINATION FOR BARS, WINERIES, BREWERIES, NIGHTCLUBS AND MEGA EVENTS**

*Modified Health Officer Order to Come Soon*

**Beverly Hills, CA** – The Los Angeles County Department of Public Health (LACDPH) will issue a new Health Officer Order that requires customers to show proof of their COVID-19 vaccination prior to entering indoor bars, wineries, breweries, nightclubs and lounges. Under the modified Order, employees and customers are required to have at least one vaccine dose by October 7 and both doses by November 4.

The New Health Officer Order will also require workers and attendees at outdoor mega events (consisting of crowds over 10,000 people) to show proof of vaccination or a negative COVID-19 test taken within 72 hours before working or attending the event. Attendees at indoor mega events are already required to show proof of vaccination or a negative test prior to entry. These requirements will also apply to theme parks within the County.

While not required, LACDPH also recommends vaccine verification at indoor portions of restaurants to reduce transmission risk.

This announcement impacts businesses in the City of Beverly Hills. When available, the updated Health Officer Order can be viewed at [beverlyhills.org/coronavirus](https://beverlyhills.org/coronavirus).
